## 60 Years – The Girl In The Little Red Dress

As I sit and try to write this note I think about a young man's quote.

“Who's the girl in the little red dress?”, he asked. While standing with friends at a Valentine's Dance.

He started across the floor to meet this girl not knowing how that meeting would soon change his world.

That meeting on Valentine's Day in 1957 was a gift from God, directly from Heaven.

They started life together the following May now 60 years later, they are together still today.

I think we can learn from this special event that this marriage was definitely heaven sent.

Dedication towards a common goal Unity of hearts, mind and soul.

The love of God, family and friends. Keep this marriage strong until the end.
